WORKHOLDING KITS

ANGLE BAR KIT

The Angle Bar Kit is a simple and effective solution for quickly locating square and rectangular parts in your laser marking enclosure.

Designed specifically for use with our fixture plate, the angle bar positions can be easily moved and adjusted using the grid of mount holes, giving you the ability to hold a wide variety of part sizes.

Additionally, the angle bar slots allow for more precise position adjustments, giving you greater flexibility and control over part alignment.

Model Number: KWH-3

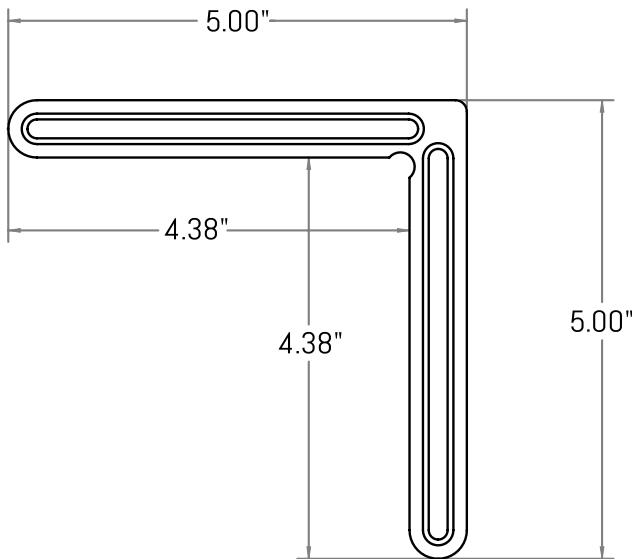

Price: \$175.00

*subject to change at any time

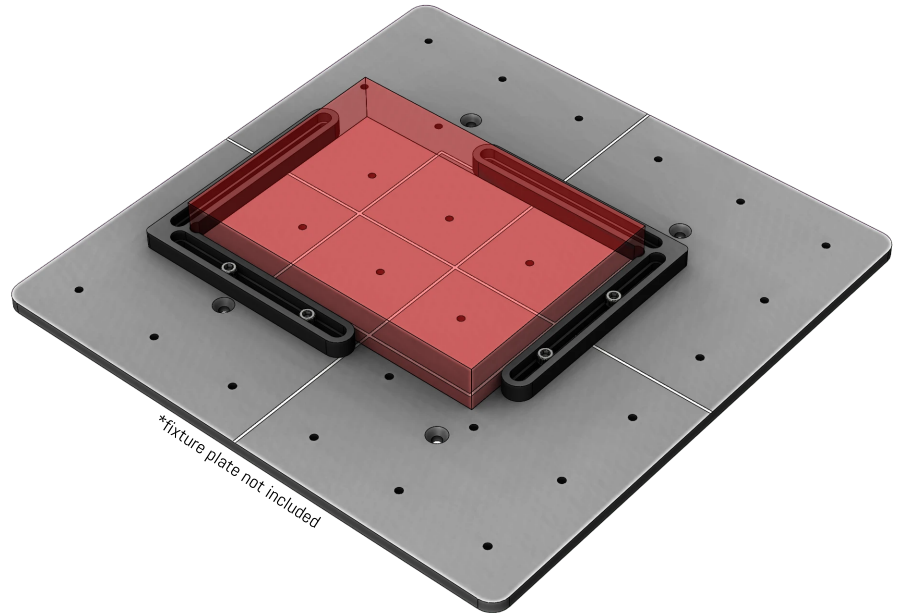

This kit includes the following items:

- (2) Right Angle Bank Stops
- Mount Hardware

The mount holes on the fixture plate are spaced 2 inches apart, and the slots in the angle bars allow for continuous positioning along the grid of mount holes.

Angle Bar Height = 0.38"

HOW TO ORDER

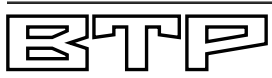

Custom workholding setups and fixtures are also available.
